

Visualize your operations

It fits your solution

Dime.Scheduler is a unique, flexible and versatile graphical resource planning solution that works with all Dynamics products and many other ERP/CRM solutions.

What sets us apart?

Integration
with many
ERP/CRM/LOB
applications,
simultaneously

Versatility
with installations
in various
industries

Flexibility
as anything can
be a task and
everything a
resource

Re-usability
by tying in with
existing business
logic

Mr. Sonntag
Grotemeier Germany

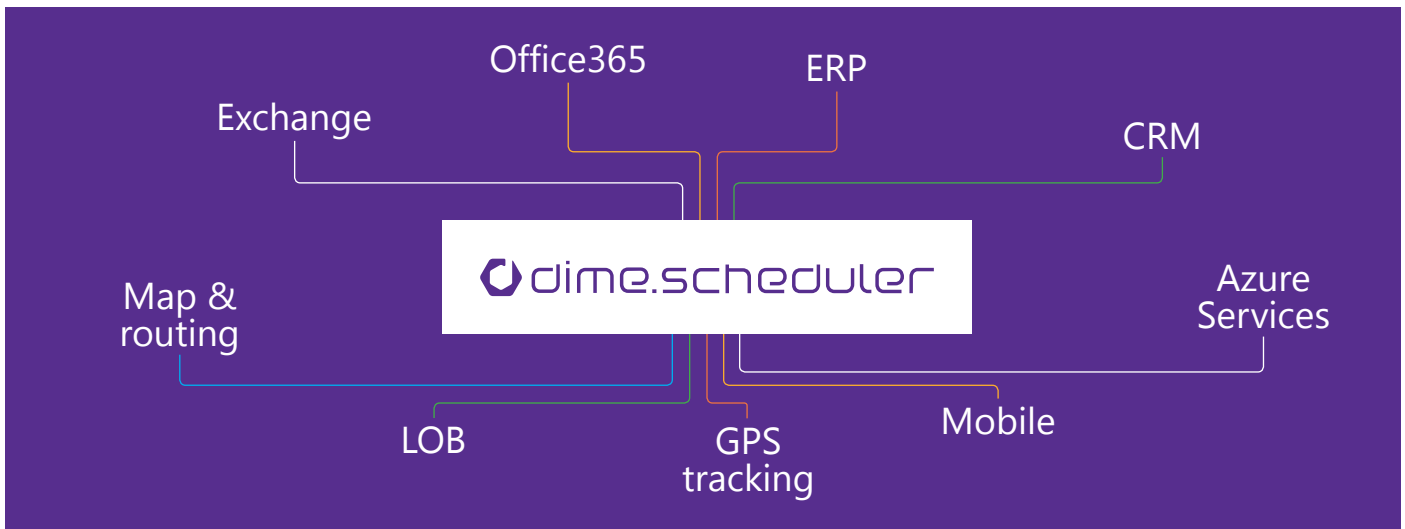

"A great decision. It is just as easy-to-use and flexible as the old disposition calendar, but with numerous additional fantastic features. Dime.Scheduler is the tool-to-go"

Grotemeier

Guy De Knaep
ICT Manager at Group Renotec

"We use Dime.Scheduler to manage the use of 100s of machines, scheduling their time at construction sites and anticipating maintenance."

RENOTEC
RENOVATING FOR THE FUTURE

One planner for all

Manage your operations across your organization connecting multiple back office applications to 1 instance of Dime.Scheduler, planning all your business areas, departments, sites, offices and countries.

- ## Key features
- Multiple, unlimited plan boards
 - Responsive web application
 - Automatic resource filtering with unlimited filter sets
 - Customizable colors and markers
 - Define your own captions in any language
 - Capacity Pivot
 - Workflow security
 - Custom Views
 - Segregation of Roles & Responsibilities
 - Working Schedules and Time Slots

Control is yours

It doesn't stop after planning a task as continuous interaction with the integrated business processes of the back office application updates colors, markers and more in real time on the plan board showing status or progress.
